October 7, 2026

Temporary water service interruption on Skylark Lane to facilitate watermain repairs on October 8, 2026

The Town of Sidney will be completing a watermain repair on Skylark Lane on Thursday, October 8, 2026. To complete this work, water service to affected properties on Skylark Lane will be temporarily shut off from 8:30 a.m. to 2:00 p.m.

Before the water service interruption, residents may wish to collect water in containers for use during the shutdown period. Toilets can continue to be flushed if water is manually added to the toilet tank.

The Town will flush the watermain before water service is restored, however, if water appears cloudy or discoloured after service is restored, residents are advised to run cold water from a bathtub faucet or utility sink until the water runs clear.

This repair is related to a watermain break that occurred on Skylark Lane on October 2, 2026, when crews temporarily shut off water service to investigate and complete emergency repairs.
